ORDER

GLOBAL REINSURANCE CORP. OF AM.,

Defendant.

---

JOHN G. KOELTL, District Judge:

The petitioner brought this action to confirm an arbitration award issue on March 7, 2011.

The respondent does not dispute that the arbitration award should be confirmed and contends that it has paid the award. The petitioner responds that the past billings have been paid but that the declaratory component of the award remains in effect and has not been fully performed.

Because there is no dispute that the arbitration award should be confirmed, the motion to confirm the arbitration award is granted.

The Clerk is directed to enter judgment and to close this case.

SO ORDERED.
